CORE TEAM ROLE · LUMINOUS MYSTERIES · THE PROCLAMATION OF THE KINGDOM

MOBILE ENGINEER (ANDROID AND IOS)

Builds Youkaris for the phones strangers carry every day.

ROLE	Mobile Engineer (Android and iOS)
MYSTERY	Luminous Three: The Proclamation of the Kingdom
TEAM	Technology
EXPERIENCE	Experience required. Onboarding provided
REPORTS TO	Technology Lead
WHERE	Online, from anywhere
TIME	All day Sunday, then project-based with no fixed hours
TYPE	Unpaid volunteer role on the core team. Not a job and not full-time

ABOUT US

Strangers for Mary is a network of Marian devotees who carry one another to Jesus.

Technology builds and runs Youkaris, the admin portal and the website: the systems that let a prayer typed in one country land safely in another. We build with a lot of AI assistance, so we look for engineers who can design systems, judge what AI produces and own what ships.

WHY THIS MYSTERY

Jesus proclaimed the Kingdom wherever people were. This role puts Youkaris in the pocket of every stranger, wherever they are.

THE ROLE

You build Youkaris for the phones strangers actually use, from the newest iPhone to a modest Android phone on a slow connection. We may move between native and hybrid as the network grows, so you are comfortable with both, and you care about speed, battery, offline use and reminders that arrive on time.

WHAT YOU WILL DO

- Build and maintain the Youkaris mobile experience for Android and iOS.
- Implement prayer flows, intention submission, reminders and the liturgical calendar on mobile.

- Make Youkaris work well on low-end Android phones and weak connections, including offline prayer.
- Handle push notifications reliably across both platforms.
- Manage releases to the Google Play Store and the Apple App Store.
- Work with the Product Designer to make every screen simple and accessible.

WHAT WE LOOK FOR

You will need

- Mid-level experience: you have shipped and maintained production software, not only tutorials or side projects.
- Solid system design: you can reason about data models, APIs, queues, caching, security, cost and scale, and explain your trade-offs.
- Fluent with AI-assisted development (for example Claude Code or Cursor): you know how to direct it, review what it produces and catch what it gets wrong.
- Experience building and shipping native mobile apps for Android (Kotlin) and or iOS (Swift).
- Experience with a hybrid approach too: React Native, Flutter, Capacitor or a progressive web app.
- Experience with push notifications and store releases.

It helps if you have

- Performance work on low-end devices.
- Offline-first architecture.
- Accessibility on mobile.

IN THE INTERVIEW

Applicants may be invited to a short online interview. We will explore:

- When native is worth it and when hybrid is enough, using Youkaris as the example.
- How you would make sure a 6am reminder arrives on time on both platforms.
- Show us an app you shipped to a store and what you learned.

CURRENT PRIORITIES

- Ship the first mobile release of Youkaris for launch on 1 January 2027.
- Set up release pipelines for both stores.

WHAT IT ASKS OF YOU

A daily Rosary

You pray the full Rosary each day and the Strangers' Prayer after it. As a core team member you are among the first reserve strangers, invited to pray an extra Rosary when a stranger's intention would otherwise go unprayed.

Sunday

Sunday is the one firm commitment. Intentions close at 6pm on Sunday and a new week of prayer begins, so core team members keep the whole day for the network, after Holy Mass.

The rest of the week
There are no fixed hours. Work is organised by project on our internal tool, and you make your own time to deliver what you have agreed to deliver.

Training is provided
We train every volunteer in their role. Roles marked "Training provided" are open to people with no experience in the work, as long as you are willing to learn and to deliver. Roles marked "Experience required" need someone who has done the work before; you still receive onboarding.

Where
Online, from anywhere in the world. We meet in person once a year, at the gathering on the last Saturday of October, and you come if you can.

Discretion
Strangers are known by baptism name and member ID. You never seek, share or store anything that could identify a stranger beyond what your role needs.

Unpaid, and not a job
This is a volunteer role. It is not a job and it is not full-time: there is no salary, allowance, stipend or payment of any kind. You give your gifts to Mary's mission alongside your studies, work and family life, and the network gives you a place among the people who build and carry it.

HOW TO APPLY

Apply for this role on the Volunteer page at **www.strangersformary.org**. The application asks a few questions about this role, your CV and your confirmation that you understand this is an unpaid volunteer role, not a job. If the place is filled, we keep your application for when it opens again. Questions can go to **admin@strangersformary.org**.
