ABOUT US

Strangers for Mary is a network of Marian devotees who carry one another to Jesus.

Technology builds and runs Youkaris, the admin portal and the website: the systems that let a prayer typed in one country land safely in another. We build with a lot of AI assistance, so we look for engineers who can design systems, judge what AI produces and own what ships.

WHY THIS MYSTERY

In the Eucharist, Jesus gave himself in a form simple enough to receive every day. This role makes Youkaris simple enough to return to every day.

THE ROLE

You design how Youkaris works and feels. A stranger should be able to open the app half asleep at 6am and know exactly what to pray and for whom. You turn the network's way of life into flows and screens, test them with real strangers, and keep the app consistent with the Strangers for Mary brand.

WHAT YOU WILL DO

- Design the flows and screens of Youkaris and the admin portal.
- Run simple user research and usability tests with real strangers.
- Keep a design system in step with the brand, working with the Brand and Graphic Designer.

- Design for accessibility, low-end phones and different languages.
- Hand over clear, buildable designs to engineers and review what they build.

WHAT WE LOOK FOR

You will need

- A portfolio of shipped product design for mobile and web apps.
- Strong interaction design, information architecture and visual skills.
- Fluency in Figma or a similar tool, and comfort working with AI design tools.
- Understanding of how designs are built in React and on native platforms.

It helps if you have

- Experience designing habit-forming or wellbeing products, done ethically.
- Experience with design systems.
- Prototyping in code.

IN THE INTERVIEW

Applicants may be invited to a short online interview. We will explore:

- Walk us through one case study from problem to shipped product.
- Redesign exercise: the screen a stranger sees after missing two days of prayer.
- How you design a daily habit without manipulating people.

CURRENT PRIORITIES

- Finish the designs for Youkaris version one.
- Run usability tests with the first strangers in January 2027.

WHAT IT ASKS OF YOU

A daily Rosary

You pray the full Rosary each day and the Strangers' Prayer after it. As a core team member you are among the first reserve strangers, invited to pray an extra Rosary when a stranger's intention would otherwise go unprayed.

Sunday

Sunday is the one firm commitment. Intentions close at 6pm on Sunday and a new week of prayer begins, so core team members keep the whole day for the network, after Holy Mass.

The rest of the week

There are no fixed hours. Work is organised by project on our internal tool, and you make your own time to deliver what you have agreed to deliver.

Training is provided

We train every volunteer in their role. Roles marked "Training provided" are open to people with no experience in the work, as long as you are willing to learn and to deliver. Roles marked "Experience required" need someone who has done the work before; you still receive onboarding.

Where
Online, from anywhere in the world. We meet in person once a year, at the gathering on the last Saturday of October, and you come if you can.

Discretion
Strangers are known by baptism name and member ID. You never seek, share or store anything that could identify a stranger beyond what your role needs.

Unpaid, and not a job
This is a volunteer role. It is not a job and it is not full-time: there is no salary, allowance, stipend or payment of any kind. You give your gifts to Mary's mission alongside your studies, work and family life, and the network gives you a place among the people who build and carry it.

HOW TO APPLY

Apply for this role on the Volunteer page at **www.strangersformary.org**. The application asks a few questions about this role, your CV and your confirmation that you understand this is an unpaid volunteer role, not a job. If the place is filled, we keep your application for when it opens again. Questions can go to **admin@strangersformary.org**.
