CORE TEAM ROLE · LUMINOUS MYSTERIES · THE BAPTISM IN THE JORDAN

TECHNOLOGY LEAD

Owns the architecture of Youkaris, the admin portal and the website.

ROLE	Technology Lead
MYSTERY	Luminous One: The Baptism in the Jordan
TEAM	Technology, team lead on the leadership team
EXPERIENCE	Experience required. Onboarding provided
REPORTS TO	The Network Custodian
WHERE	Online, from anywhere
TIME	All day Sunday, then project-based with no fixed hours
TYPE	Unpaid volunteer role on the core team. Not a job and not full-time

ABOUT US

Strangers for Mary is a network of Marian devotees who carry one another to Jesus.

Technology builds and runs Youkaris, the admin portal and the website: the systems that let a prayer typed in one country land safely in another. We build with a lot of AI assistance, so we look for engineers who can design systems, judge what AI produces and own what ships.

WHY THIS MYSTERY

At the Jordan, the heavens opened and a mission began in public. This role opens the way for everything we build and carries it into the light.

THE ROLE

You lead Technology and own the architecture of everything we build: Youkaris, the admin portal and the website. You make the big technical decisions, including when we build native and when we build hybrid, set the standards the team works to, and make sure what we ship is secure, private, affordable to run and ready to grow from hundreds of strangers to many thousands.

WHAT YOU WILL DO

- Own the system architecture across Youkaris, the admin portal and the website, on our Firebase backend.
- Decide between native and hybrid approaches for mobile, and document why.

- Set engineering standards: code review, testing, releases, security and privacy by design.
- Lead the four other members of Technology: plan the work, review it and help them grow.
- Set how the team uses AI tools safely and well, and review AI-generated code that touches core systems.
- Keep running costs low: small media, sensible storage and archiving.
- Protect stranger data: member IDs, no full names, and strict access by role.
- Report progress to the leadership team in plain language.

WHAT WE LOOK FOR

You will need

- Mid-level or senior engineer with real production experience and a strong grasp of system design.
- Experience with Firebase or similar backends (Firestore, Cloud Functions, Auth), and with React.
- Experience shipping mobile apps, native (Swift or Kotlin) or hybrid (React Native, Flutter or a PWA).
- Daily, critical use of AI-assisted development tools.
- The ability to lead and mentor other developers.

It helps if you have

- Experience leading a small team or an open-source project.
- Security and privacy experience.
- Experience with internationalisation.

IN THE INTERVIEW

Applicants may be invited to a short online interview. We will explore:

- A system design session: design the weekly intention exchange for 10,000 strangers.
- When you would choose native over hybrid for Youkaris, and why.
- How you review and test code an AI assistant wrote.
- Show us something you designed and shipped, and what you would do differently.

CURRENT PRIORITIES

- Ship the admin portal and Youkaris by the end of December 2026.
- Launch Youkaris on 1 January 2027.
- Write the architecture decisions record so new engineers can join quickly.

WHAT IT ASKS OF YOU

A daily Rosary

You pray the full Rosary each day and the Strangers' Prayer after it. As a core team member you are among the first reserve strangers, invited to pray an extra Rosary when a stranger's intention would otherwise go unprayed.

Sunday
Sunday is the one firm commitment. Intentions close at 6pm on Sunday and a new week of prayer begins, so core team members keep the whole day for the network, after Holy Mass.

The rest of the week
There are no fixed hours. Work is organised by project on our internal tool, and you make your own time to deliver what you have agreed to deliver.

Training is provided
We train every volunteer in their role. Roles marked "Training provided" are open to people with no experience in the work, as long as you are willing to learn and to deliver. Roles marked "Experience required" need someone who has done the work before; you still receive onboarding.

Where
Online, from anywhere in the world. We meet in person once a year, at the gathering on the last Saturday of October, and you come if you can.

Discretion
Strangers are known by baptism name and member ID. You never seek, share or store anything that could identify a stranger beyond what your role needs.

Unpaid, and not a job
This is a volunteer role. It is not a job and it is not full-time: there is no salary, allowance, stipend or payment of any kind. You give your gifts to Mary's mission alongside your studies, work and family life, and the network gives you a place among the people who build and carry it.

HOW TO APPLY

Apply for this role on the Volunteer page at **www.strangersformary.org**. The application asks a few questions about this role, your CV and your confirmation that you understand this is an unpaid volunteer role, not a job. If the place is filled, we keep your application for when it opens again. Questions can go to **admin@strangersformary.org**.
